Water Care

Water Care AI Hackathon · Track A6 pack
Background document 3

**Synthetic training document.** This contribution agreement is invented for a hackathon. It follows the structure and standard wording of the Global Affairs Canada (GAC) contribution agreement template in use in 2019, but the parties, project, places and dates are fictional, contact details and signatures have been removed, and **dollar amounts are omitted on purpose**. This consolidated version replaces all amendments. Information has been **deliberately altered to include errors and inconsistencies** so you can test your tool.

# Articles of Agreement

**BETWEEN:** Her Majesty the Queen in right of Canada ("Her Majesty") represented by the Minister for International Development acting through the Department of Foreign Affairs, Trade and Development (hereinafter referred to as "Global Affairs Canada" or "the Department");

**AND:** Water Care, a not-for-profit organization federally incorporated under the laws of Canada, represented by its Chief Executive Officer (hereinafter referred to as "the Organization").

(Individually referred to as "Party" and collectively as "the Parties"):

WHEREAS the Organization wishes to implement the project entitled "Taps for Rights: Water, Sanitation and Menstrual Health for Sexual and Reproductive Health and Rights" (hereinafter referred to as "the Project") in the Republic of Nimbara and Sundara ("Recipient Countries"), for which it requests a contribution from the Department.

THEREFORE, the Parties agree as follows:

### 1. Purpose of the Agreement

**1.1** The Department hereby provides a contribution to the Organization exclusively for the implementation of the Project, in accordance with this agreement ("the Agreement").

**1.2** The Agreement which includes the Articles of Agreement, the Appendices, the General Terms and Conditions - Contribution Agreement applicable on the Effective Date of the Agreement ("the General Terms and Conditions" available at http://www.international.gc.ca/development-developpement/partners-partenaires/bt-oa/publications.aspx?lang=eng), and any amendments made to the Agreement constitute the complete and exclusive agreement between the Parties with respect to the Project and supersede and replace any and all prior agreements, communications and understandings, both written and oral, regarding such subject matter.

**1.3** In case of conflict between provisions of the Agreement, the order of precedence shall be the following:

a) These Articles of Agreement and any amendments relating thereto;
b) The General Terms and Conditions;
c) The Appendices in the following order: i. Appendix A - Project Description; ii. Appendix B - Financial Terms; iii. Appendix C - Project Budget; iv. Appendix D - Reporting Requirements; v. Other annexes as added to the Agreement;
d) The Reporting Forms (http://www.international.gc.ca/department-ministere/forms-formulaires.aspx?lang=eng).

### 2. Project Funding

**2.1** Subject to the provisions of the Agreement, the Department shall make a contribution to the Organization ("the Contribution") not exceeding the lesser of the following:

a) [Amount omitted for this exercise] Canadian dollars, as detailed in Appendix B - Project Budget;

b) Ninety point five percent (90.5%) of the total value of the Eligible Direct Costs as detailed in Appendix B - Project Budget, plus any applicable allowance for indirect/overhead costs as defined in Appendix C - Terms of Payment.

**2.2** The Organization shall contribute a minimum of nine point five percent (9.5%), in cash and/or in kind from Canadian sources, towards the total value of the Eligible Direct Costs as detailed in Appendix B - Project

Budget.

**2.3** At the end of the Project, the contribution from the Organization shall not be less than nine point five percent (9.5%) of the Eligible Direct Costs in cash from Canadian sources.

**2.4** It was specified in the Project parameters that the applicant provides at least ten percent (10%) of the total eligible direct project costs over the life of the Project in cash or in kind.

**2.5** The Organization declares that all sources of funding for the Project with their corresponding amounts have been disclosed in writing to the Department. Should new funding from other sources become available for the Project during the Agreement, the Organization shall disclose and update this information in writing in its reports in accordance with Appendix D - Reporting Requirements. Where the total amount of funding from all sources exceeds one hundred percent (100%) of the total value of the Project, the Department shall have the right to adjust the Contribution or recover any surplus paid, up to the amount of the Contribution made under the Agreement.

### 3. Effective Date

The Agreement shall take effect on the date of the last signature of the Agreement (the "Effective Date"). Costs incurred prior to the Effective Date shall not be eligible for reimbursement under the Agreement.

### 4. Expiry Date

**4.1** Except as otherwise stated in Sub-Article 4.2 below, the Agreement shall expire on September 30, 2023 at which time all Project activities identified in Appendix A - Project Description will have been completed and all final reports identified in Appendix D - Reporting Requirements will have been received and accepted by the Department.

**4.2** All Project activities identified in Appendix A shall be completed no later than March 31, 2023. After that date, only costs related to the demobilization of Personnel, the disposal of assets and the preparation of the Final Reports will constitute Eligible Costs under the Agreement.

### 5. Survival Clause

The following Articles shall survive the expiry of the Agreement for three (3) years:

a) Article 10.1.1 of the Articles of Agreement - Construction;
b) Article 13 of the General Terms and Conditions - Monitoring and Evaluation;
c) Article 14 of the General Terms and Conditions - Financial Records and Audit;
d) Article 16 of the General Terms and Conditions - Default and Remedies; and
e) Article 19 of the General Terms and Conditions - Intellectual Property.

### 6. Communications and Notices

**6.1** Any notice or communication shall mention the title of the Project and the purchase order number. Any notice given pursuant to the Agreement shall be effectively given if delivered, sent by registered letter or by facsimile to the recipient at the address mentioned below. Any change to the address may be made by notice in accordance with this Article.

**6.2** Any communication given pursuant to the Agreement shall be effectively given if delivered, or sent by registered letter, mail, facsimile or email to the recipient at the address mentioned below.

| 6.3 Address of the Department | 6.4 Address of the Organization |
|---|---|

| | |
|---|---|
| Department of Foreign Affairs, Trade and Development<br>125 Sussex Drive, Ottawa, Ontario K1A 0G2, Canada<br>Attention: Senior Development Officer, Partnership for Social Development Bureau<br>[Name, telephone and email withheld] | Water Care<br>[Address withheld for this exercise]<br>Attention: Director, International Programs and Policy<br>[Name, telephone and email withheld] |

### 7. Reports

The Organization shall submit the reports identified in Appendix D, for the Department's review and approval.

### 8. Environment

**8.1** The Agreement may involve the carrying out of one or more components that is likely to cause negative environmental effects. The Organization shall ensure that the Project is not likely to cause significant adverse environmental effects. The Organization shall ensure that the management of environmental effects, including any analysis, is carried out in accordance with the environmental processes and requirements of the Organization.

**8.2** Upon the Department's request, the Organization shall provide the Department with a copy of any environmental analysis(es) and any supporting documentation.

**8.3** The Department may also evaluate whether the management of environmental effects was carried out in accordance with the environmental process(es) and requirements of the Organization.

**8.4** The Organization shall explicitly and systematically implement environmental considerations identified in the Agreement, and in any subsequent environmental analysis, at all stages of the Project.

**8.5** As part of its regular reporting, the Organization shall report to the Department on the application of the above provisions.

### 9. Gender Equality

**9.1** In line with Global Affairs Canada's Policy on Gender Equality (http://international.gc.ca/world-monde/funding-financement/policy-politique.aspx?lang=eng), the Organization shall explicitly and systematically implement the gender equality commitments identified in the Agreement, and any other gender equality considerations derived from subsequent gender equality analysis, at all stages of the Project.

**9.2** As part of its regular reporting, the Organization shall report to the Department on the application of the above provision.

### 10. Construction

**10.1** With regards to the construction, the Organization shall:

10.1.1 assume all performance risks related to any works of construction. This means that the Organization shall be responsible for delivery of the completed construction work free of defects and the Organization shall correct at its own cost any defects identified. The Organization shall guarantee all performance risk related to any works of construction for at least twelve (12) months following issuance of the Certificate of Completion, or longer as agreed through the Construction Validation Plan;

10.1.2 ensure that all construction complies with the building code or standards and technical norms in effect in Nimbara and Sundara or other recognized building code;

10.1.3 ensure that seismic and climatological data essential to the design of the works are those applicable in Nimbara and Sundara, including flood levels in Nadipur District;

10.1.4 retain the services of a competent authority to ensure compliance with the requirements under Sub-Articles 10.1.1 to 10.1.3. "Competent authority" means an engineer or architect, depending on the applicable area of expertise, who is a member of an accredited professional organization who has the authority to design and to supervise the structural works, and who has an Arm's Length Relationship with the contractor(s) or the subcontractors performing the works. The services of a "competent authority" are not required when the construction work is for non-structural works as defined under Sub-Article 1.5.8 - Construction Costs of Appendix B - Financial Terms;

10.1.5 ensure that any guarantee on construction work and equipment is transferable to the Recipient Country or other beneficiary agreed through the Disposal of Assets Plan.

**10.2** The Organization shall include provisions similar to those contained in Sub-Articles 10.1.1 to 10.1.5 in all Subcontracts and Sub-Agreements it signs for the purposes of this Project that pertain to or include construction works.

### 11. Applicable Law and Jurisdiction

This Agreement shall be governed by, and is to be construed and interpreted in accordance with, the laws in force in the Province of Ontario and the laws of Canada applicable therein. The Parties acknowledge the exclusive jurisdiction of the courts and tribunals of the Province of Ontario, Canada.

### 12. Signing of the Agreement

The Parties can sign the Agreement in counterpart. Each copy signed by the Parties shall be an original. The Agreement has been signed for Her Majesty and for the Organization by their respective representatives, duly authorized.

# Appendix A: Project Description

### 1. Project Summary

Taps for Rights is a three-year project (2019-2022) that addresses menstrual health and hygiene for women and adolescent girls as a foundation for improving comprehensive sexual and reproductive health and rights (SRHR) in Tenkori and Diafo districts (Kessara Region, Nimbara) and Nadipur District (Rivana Province, Sundara). Its starting point is water: a menstrual hygiene space is only usable if there is water on site to wash hands, bodies and reusable pads. Improved SRHR will be achieved through increasing government and civil society responsiveness to the menstrual health needs of women and adolescent girls, and through increasing the provision, awareness and use of water, sanitation and menstrual health facilities and product supplies in schools, health care centres and communities. Project activities will encompass:

1. policy, advocacy and practical interventions using youth-centred and female-centred approaches;
2. rehabilitation of water points and latrines in 40 schools and 20 health care facilities so that they are secure, accessible and equipped for menstrual hygiene management, including a private space with water for washing and safe disposal of used pads;
3. improvements to, and development of, supply chains for menstrual hygiene products that create economic opportunities for local businesses, women entrepreneurs and youth-led groups; and
4. analysis of national and district plans, policies and budgets that lack adequate consideration of menstrual health needs in education, health and water services.

### 1.1 Expected Results and Implementation

#### 1.1.1 Reach

The Project will target an estimated 23,450 direct beneficiaries, comprising 15,600 women and girls and 6,850 men and boys, in Nimbara and Sundara. In addition, it is estimated that 34,750 indirect beneficiaries will be reached, including 23,000 women and girls and 11,750 men and boys. Total estimated reach is 58,200 people. All figures are estimates and more specific targets will be defined during the baseline assessment.

The beneficiary population is primarily women and girls, including women and girls with disabilities. Men and boys, including those with disabilities, are also included so that facilities are used and maintained properly and so that the whole community helps to overcome taboos about menstruation. Intermediaries include government, civil society, health and education ministry staff, water committees and local business owners.

#### 1.1.2 Intermediate outcomes

**Intermediate Outcome 1100: Increased government and civil society responsiveness to the menstrual health needs of women and adolescent girls.** Duty bearers in Nimbara and Sundara often lack the capacity to overcome barriers to rights such as health, water, sanitation and education. The Project will map gaps in national policies and guidelines (1111), support relevant national ministries to address them (1112) and engage women influencers to champion menstrual health as an entry point to SRHR (1113). At district level, local service providers and authorities will be trained (1121); district gaps in menstrual health provision will be mapped and used to inform local planning and budgeting (1122); and advocacy will be carried out for WASH at Work campaigns on menstrual health at workplaces and markets (1123).

**Intermediate Outcome 1200: Increased utilization of gender-sensitive WASH facilities and menstrual hygiene product supplies in schools, health care centres and communities.** Water points and WASH facilities in targeted schools and health centres will be rehabilitated and adapted for menstrual hygiene (1211); school and health care staff will be trained (1212); and students will be sensitized through peer-to-peer learning and

curriculum (1213). Local supply chains for menstrual hygiene products will be mapped (1221) and local businesses, women entrepreneurs and women- and youth-led groups supported to provide and market products (1222). Community campaigns (1231) and community champions (1232) will improve awareness of menstrual health as a foundation of SRHR and gender equality.

#### 1.1.3 Key Performance Indicators

The full Performance Measurement Framework (PMF) will be finalized in the Project Implementation Plan. The following indicators will be used to track results:

- Ultimate Outcome 1000: % of women and adolescent girls (by age group) in targeted communities reporting positive menstrual hygiene management practices.
- Intermediate Outcome 1200: % of targeted schools and health care facilities with water available on premises at the time of a visit.
- Immediate Outcome 1110: # of national policies, guidelines and strategies relating to, or including, menstrual health strengthened or enacted.
- Immediate Outcome 1230: # of local actors promoting menstrual hygiene management in target communities as a result of project assistance.

### 1.2 Gender Equality

From a gender equality perspective, the initiative aligns closely with the Feminist International Assistance Policy, particularly the action area on Human Dignity and the commitment to close persistent gaps in sexual and reproductive health and rights for women and girls. Water Care will ensure that the Project Implementation Plan:

- provides details on which stakeholders were consulted on the project design and how;
- identifies gender equality risks and risk responses;
- disaggregates baseline data and targets by sex and age;
- revises the ultimate outcome indicators (1000.1 and 1000.2) to ensure differentiation from intermediate outcome indicators; and
- budgets adequate gender equality expertise and resources.

### 1.3 Environment

An environmental screening concluded that the initiative poses low to moderate environmental risks. Water Care will ensure proper mitigation of adverse environmental impacts of water supply and latrine works, including protection of groundwater from latrine pits and safe management of used menstrual products. As part of the Project Implementation Plan, Water Care will submit an Environmental Management Plan that sets out who is responsible for the quality of rehabilitation works, water supply and long-term maintenance, and the cost of the environmental measures.

### 1.4 Special Project Components

#### 1.4.1 Construction

Construction activities will consist mainly of rehabilitating water points and latrines so that facilities are accessible and meet the needs of women and girls for menstrual hygiene. This may include: doors and locks; handrails and ramps; privacy walls; general repairs; pit emptying or repair to protect groundwater; incinerators or other safe disposal for used pads; a functioning water supply within or next to the menstrual hygiene space (tap stands, short pipe extensions, or rainwater harvesting from latrine roofs); soap; and hooks. Latrine

rehabilitation may require the addition of a cabin or stance to an existing latrine block, equipped specifically for menstrual hygiene, where none exists.

### 2. Project Implementation Roles and Responsibilities

#### 2.1 Department of Foreign Affairs, Trade and Development

In addition to the Department's approval, evaluation, monitoring and auditing roles set out in the Agreement, the Department shall: 2.1.1 assess the Project's progress towards the expected outcomes through regular review of project progress reports; 2.1.2 send local or headquarters representatives, as required; 2.1.3 maintain ongoing liaison with the Organization; 2.1.4 participate in the annual Project Steering Committee meetings, when possible; and 2.1.5 attend other ad hoc Project meetings, as required.

#### 2.2 The Organization

**2.2.1** plan, manage, implement and monitor the Project using a results-based approach that integrates Gender Equality, Environmental Sustainability and Human Rights, as per the Project Implementation Plan and subsequent Annual Work Plans approved by the Department;

**2.2.2** achieve and complete, to the Department's satisfaction, all Project outcomes, outputs, activities and milestones described in this Appendix and in the attached Logic Model;

**2.2.3** inform the Department, in writing and as soon as possible, of any significant circumstances, problems or risk events which may affect the implementation of the Project, including any change of Subcontractor or partner organization;

**2.2.4** implement budgetary procedures and financial controls to ensure sound management of the Contribution and that funds received from the Department are used only for activities related to this Project;

**2.2.5** ensure the participation of partner organizations contributing to the Project in results-based planning, implementation, monitoring and evaluation, and in preparing reports; and

**2.2.6** provide detailed in-country reports on Project activities and spending in each of the two countries where the Project is implemented.

## Appendix A-1: Logic Model

The Logic Model and the Performance Measurement Framework are provided as a separate workbook in this pack (background document 5, Logic Model and PMF). The Logic Model forms part of this Agreement.

# Appendix B: Financial Terms

### 1. Eligible Costs

The following Eligible Costs justified by the Organization, and the compensation towards the Organization's indirect/overhead costs calculated in accordance with Sub-Article 1.6, may be reimbursed by the Department.

#### 1.1 Remuneration - Organization's employees

Daily rates for the Organization's employees (excluding Local Employees) for time actually worked on the implementation of the Project. Unless otherwise previously approved in writing by the Department, the time chargeable shall be based on a work day of seven and a half (7.5) hours with a maximum of five (5) days per week in Canada, and six (6) working days per week while in the field. Time shall be justified by time sheets and payroll register. The daily rate per employee is calculated as annual direct salary (plus annual paid benefits) divided by 260 days minus annual allowable time-off benefits. Salary increases are governed by the Department's policy on annual fee and salary increases.

#### 1.2 Remuneration - Local Employees

Actual and justifiable salaries and fringe benefits for Local Employees working on the implementation of the Project, in accordance with local laws and the Organization's salary scales and personnel policies. Time chargeable is based on a normal working day of eight (8) hours in Nimbara and eight (8) hours in Sundara, with a maximum of six (6) days per week, justified by time sheets and payroll register.

#### 1.3 Fees - Subcontractors with an Arm's Length Relationship with the Organization

**1.3.1** The actual and justifiable cost of Subcontractor fees under a Subcontract concluded in accordance with Articles 10 (Subcontracts and Sub-Agreements) and 11 (Procurement and Disposal of Assets) of the General Terms and Conditions.

**1.3.2** The Department's contribution towards subcontracting costs shall not exceed twenty percent (20%) of the total value of the Department's Contribution mentioned in Sub-Article 2.1 of the Articles of Agreement.

#### 1.4 Allocated Travel Time

Travel days are reimbursed on the basis of the daily rate established above. When the point of origin or destination is Canada, the maximum number of travel days and overnight stopovers eligible one way is: Africa, two (2) days and one (1) night stopover; Asia, two (2) days and one (1) night stopover. Travel between countries other than Canada requires prior written approval from the Department.

#### 1.5 Reimbursable Costs Eligible for the Fixed Overhead Compensation Rate

The actual and reasonable costs directly related to the implementation of the Project, such as:

**1.5.1** **Travel costs** incurred in accordance with the National Joint Council Travel Directive and the Treasury Board Special Travel Authorities: economy-class commercial transportation at the lowest available fare, meals, incidentals, private vehicle use and accommodation, with documentation showing the lowest fare available at the time of reservation.

**1.5.2** **Personnel on long-term overseas assignment or short-term relocation:** benefits and allowable expenses in accordance with the Organization's policies but not exceeding those in the Department's Technical Assistance Handbook.

**1.5.3** **Costs for students and trainees** in accordance with the Department's guide to managing award holders.

1.5.4 **Other training costs:** training sessions, space rental, equipment rental, manuals, course materials and translation, and other training costs with the Department's prior written approval.

1.5.5 **Goods, assets and supplies:** purchase, rental, maintenance and transportation of goods, assets and supplies (excluding office supplies), including hygiene kits and materials for making menstrual products, in accordance with Article 11 of the General Terms and Conditions.

1.5.6 **Project administration costs directly related to the Project:** long-distance communication, translation, printing, overseas office rent and utilities, leasehold improvements with prior written approval, meetings, workshops and bank transfer fees, as detailed in the approved Project Implementation Plan or Annual Work Plans.

1.5.7 **Other direct costs:** a) radio messaging; b) Menstrual Hygiene Day events; c) other advocacy activities; d) ICT platforms; and e) mentorship of women and girls.

1.5.8 **Construction costs.** The construction budget covers the work, materials and equipment related to construction, in two categories:

> **Structural works:** activities directed toward the creation, renovation, repair or extension of fixed assets in the form of buildings, land improvements of an engineering nature, and other engineering constructions such as water, sanitation and hygiene (WASH) facilities including latrines, wells, water points, water storage tanks and water distribution systems, through: new construction (the erection of an entirely new structure, whether or not the site was previously occupied); restoration; extension (the enlargement of buildings by which space is added); and conversion.
>
> **Non-structural works:** works that do not affect the structural integrity of a building or structure, such as painting, new floors, or replacing windows and doors without changing the structure.

### 1.6 Compensation for Indirect/Overhead Costs

A fixed overhead rate of twelve percent (12%) applicable only on the Department's Contribution toward Eligible Costs listed in Sub-Articles 1.1 through 1.5 above.

### 1.7 Exclusion of Organization's Profit

The Organization shall not derive any profit, directly or indirectly, from the Contribution.

### 1.8 Applicable Taxes

All costs for the Project shall include, where applicable, all taxes paid on goods and services, less any credits or reimbursements to which the Organization is entitled.

## 2. Terms of Payment

### 2.1 Payments

The Department's Contribution is offered based on the current financial viability assessment of the Organization. The Department will re-evaluate the financial viability of the Organization annually and, should the assessment reveal a change in financial risk, reserves the right to modify the terms of the Agreement or terminate it.

### 2.2 Advance Payments

The Department will make semi-annual advance payments (each six-month period is "the period" for the purpose of this Sub-Article) subject to the following:

2.2.1 For each advance payment, the Organization shall present a request for payment that includes the information set out in Form D, together with a budgetary forecast (Form A) providing a detailed estimate of

Eligible Costs for the period.

**2.2.2** The Department will make payments based on the estimated cash flow requirements of the Organization for the period, up to a maximum of ninety-five percent (95%) of the total Contribution.

**2.2.3** Upon completion of the Project, the Department will pay the balance of the Contribution for Eligible Costs incurred, subject to Sub-Article 2.3 below. The total amount of payments shall not exceed the percentage mentioned in Sub-Article 2.10 of the Articles of Agreement.

**2.2.4** Advance payments cannot cover more than two (2) periods and, at no time shall there be outstanding advances covering the cash flow requirements of more than two (2) periods. For example, before an advance payment can be issued for the third period, the first period must be accounted for.

**2.2.5** Eligible Costs incurred in currencies other than Canadian dollars shall be converted using either the FIFO (first in, first out) or the weighted average method, so that there is neither gain nor loss from the conversion. Any other method used by the Organization will be inadmissible.

**2.2.6** The Organization shall keep the Contribution in an interest-bearing account and account separately for the Department's funds. Accumulated interest shall be presented separately in financial reports and may be used only for the purposes of the Project with the Department's prior written approval; otherwise the Department may recover it at the end of the Project.

### 2.3 Final Payment

Once the Organization has completed the Project and the Department has received and accepted the final reports described in Appendix D - Reporting Requirements, the Department will remit the final payment.

# Appendix C: Project Budget

### 1. Project Budget

1.1 **Initial Budget Table.** The elements identified in Article 2 below constitute the budget for the Project.

1.2 **Transfer of Funds among Budget Categories.** The Organization may transfer funds among approved budget categories as follows:

1.2.1 After an amendment, as per Article 3 of the General Terms and Conditions (Amendment): when funds are transferred to the Remuneration/Fees budget category sub-total; or when any change is made to the Flow-Through Fund or Construction budget line items;
1.2.2 After written approval from the Department, for any transfer that represents an increase or a decrease exceeding twenty percent (20%) for that budget line item;
1.2.3 Without approval from the Department, provided that such transfer remains less than or equal to twenty percent (20%) and there is no impact on the scope and nature of the Project;
1.2.4 In no case shall budget transfers result in an increase to the Contribution.

1.3 **In-Kind Contributions.** There is no in-kind contribution in this Project.

### 2. Table 1: Project Budget (in Canadian dollars)

Amounts are omitted for this exercise. The categories below are the ones the budget template in this pack uses.

| Line | Summary of eligible cost categories | The Department | Organization cash | Organization in-kind | Total |
|---|---|---|---|---|---|
| 1.1 | Remuneration - Organization's employees (in Canada and on short-term assignment overseas; long-term assignment overseas) | - | - | - | - |
| 1.2 | Remuneration - Local employees | - | - | - | - |
| 1.3 | Fees - Subcontractors (Canadian and international; local) | - | - | - | - |
| | **Sub-total: Remuneration/Fees** | **-** | **-** | **-** | **-** |
| 1.5.1 | Travel costs | - | - | - | - |
| 1.5.2 | Benefits and allowable expenses for personnel on long-term assignment overseas and short-term relocation | - | - | - | - |
| 1.5.3 | Costs for students and trainees | - | - | - | - |
| 1.5.4 | Other training costs | - | - | - | - |
| 1.5.5 | Goods, assets and supplies | - | - | - | - |
| 1.5.6 | Project administration costs directly related to the Project | - | - | - | - |

# Appendix D: Reporting Requirements

### 1. Reporting Requirements and Guidelines

**1.1** The Organization shall submit for approval the reports in accordance with Article 3 - Schedule of Reports below, in a format of its choice that includes all the required information. The reference financial forms are provided as guidance. Reports shall be prepared in the language of the Agreement unless otherwise agreed.

**1.2** Guidelines on the narrative reporting requirements are available in the International Assistance Results Reporting Guide for Partners. These guidelines will be kept up to date on an evergreen basis and the Organization shall make every effort to adjust its reports in line with evolving requirements. The Organization shall also consult Results-Based Management for International Assistance Programming at Global Affairs Canada: A How-to Guide.

**1.3** All financial reports shall be signed by the Chief Financial Officer or most senior executive responsible for the finances of the Organization, or their official delegate holding a professional designation.

### 2. Multi-Country Projects

The Organization shall submit a two-part report consisting of an Overview Report (Part I) and country reports for Nimbara and Sundara (Part II).

### 3. Schedule of Reports

For the purpose of the Agreement, the Project year is the 12-month period from April 1 to March 31.

| Report | Frequency | Due | Period covered | Reference financial forms |
|---|---|---|---|---|
| 4.1 Project Implementation Plan (including first Annual Work Plan) | Once | No later than 180 days after the signature of the Agreement | Life of Project and first year | |
| 4.2 Baseline Report | Once | Submitted as part of 4.1 | Life of Project | |
| 4.3 Annual Work Plan | Annually | Within 45 days following the end of the Project year | One year, forward looking | |
| 4.4 Construction Validation Plan | As needed | Within 45 days prior to the anticipated start of the construction works | | |
| 4.5 Budgetary Forecast | Semi-annually | With each advance payment request | Period of the advance | Form A; Form D |
| 4.6 Periodic Financial Report | Semi-annually | Within 45 days following the period covered | Previous six months | Form B; Form A |
| 4.7 Progress Report on Construction | Semi-annually | With the Project Operations Report | April 1 to September 30; October 1 to March 31 | |
| 4.8 Project Operations Report | Semi-annually | Within 45 days following the period covered | April 1 to September 30 | |

| | | | | |
|---|---|---|---|---|
| 4.9 Project Results Report | Annually | Within 45 days of the end of the Project year | April 1 to March 31 | |
| 4.10 Financial Statements | Annually | No later than September 30 of each year | Organization's previous fiscal year | |
| 4.11 Disposal of Assets Plan | Once | No later than 90 days prior to the end of the Project activities | | |
| 4.12 Final Results and Operations Report | Once, at Project completion | Within 90 days from the end of Project activities and at least 60 days before the expiry of the Agreement | Life of Project | |
| 4.13 Final Financial Report | Once, at Project completion | With the Final Results and Operations Report | Life of Project | Form C; Form D |

## 4. Specific Requirements for Each Report

4.1 **Project Implementation Plan (PIP).** The PIP describes how the Organization intends to implement the Project over its entire duration, validates the Project design and confirms that all stakeholders agree with it. Until the PIP is approved, implementation of activities other than those related to developing the PIP requires prior approval by the Department. The PIP and first Annual Work Plan form one document of no more than 30 pages (excluding annexes) and include: project summary; theory of change and logic model, including risks and mitigation; reach, disaggregated by sex and other relevant identity factors; outcome-based schedule; results-based monitoring and evaluation plan; management and governance; gender equality strategy; communications strategy with the Visibility and Recognition Activities Planning Form; and annexes with the fully completed PMF including all baseline data and a budget by line item.

4.2 **Baseline Report.** Baseline data provide a value for every PMF indicator at the start of the Project, with a narrative explaining how they were collected, analysed and validated, and their limitations. Baseline data for results that involve women and girls must be sex-disaggregated and/or gender-sensitive and should be disaggregated by age and other relevant categories. Baselines should be validated by country partners.

4.3 **Annual Work Plan.** Defines and obtains the Department's approval for specific activities for the coming year. A stand-alone document of no more than 20 pages including: outcome-based schedule; budget variances, expected salary increases and transfers requiring prior approval; communications activities; budget by line item showing expenditures to date, remaining budget and forecast; and the logic model, PMF, risk information and gender equality strategy only if changed.

4.4 **Construction Validation Plan.** For each construction work as defined in Sub-Article 1.5.8 of Appendix B, the Organization shall seek written approval from the Department, through a Construction Validation Plan, prior to initiating construction. For structural works the plan covers: the list of works per site and the construction process; building codes and permits; a detailed budget; a construction schedule; environmental mitigation measures; a procurement plan; a quality control and monitoring plan; and identification of the competent authority. For non-structural works, the plan lists works, budget and schedule per site.

4.5 **Budgetary Forecast.** Detailed estimates of Eligible Costs for the period of the advance, by the budget lines in Appendix C, accompanying each Request for Advance and Reconciliation (Form D).

4.6 **Periodic Financial Report.** By the budget lines in Appendix C: the Organization's cumulative contribution; actual costs for the period compared with forecast; project-to-date actual costs compared with

budget; year-to-date costs and updated forecast; analytical comments on variances; and, annually, a list of other sources of funding.

4.7 **Progress Report on Construction.** For structural works, reviewed and signed by the competent authority and annexed to each Project Operations Report. For non-structural works, integrated in the body of the Project Operations Report.

4.8 **Project Operations Report.** Includes all information set out in the International Assistance Results Reporting Guide for Partners.

4.9 **Project Results Report.** Includes all information set out in the International Assistance Results Reporting Guide for Partners, with the Visibility and Recognition Activities Report Form.

4.10 **Financial Statements.** A copy of the Organization's annual audited financial statements no later than September 30 of each year.

4.11 **Disposal of Assets Plan.** As per Article 11 of the General Terms and Conditions, no later than ninety (90) days prior to the end of the Project activities, the Organization shall submit a Disposal of Assets Plan for approval.

4.12 **Final Results and Operations Report.** Includes all information set out in the International Assistance Results Reporting Guide for Partners and the Visibility and Recognition Activities Report Form, and shall be submitted within forty-five (45) days from the end of the Project activities.

4.13 **Final Financial Report.** Actual total disbursements by the budget lines in Appendix C compared with the budget; a Request for Advance and Reconciliation (Form D) if applicable; a declaration of all other sources of funding; a list of all Subcontractors; a certificate that financial obligations to employees, Subcontractors and suppliers have been discharged; a description of intellectual property created; and the distribution and transfer of Project assets.
